

KASHMAR STONE TRADING

KASHMAR STONE TRADING

## About Us

Kashmar Stone co. was founded on 1984. Ever since then, with the efforts of hardworking colleagues in this group, we have been able to make successful and growing progress in this industry.

We are the owner of 5 quarries and 4 separate factories toward production, processing and export the highest quality marbles in Iran. Also we have a stockyard in the middle of Iran (Isfahan) to create diversity for free choices. We are exporting our marbles to over 10 countries.

# Vision

We have created a strong structure with a vision of the the futureby combining our experience to provide the best material with the best support to our customers.

## Mission

Due to the high potential of the company, our strategy is to use available resources and facilities with the approach of providing the desired product with the desirable quality, as well as eliminating middlemen and saving in financial and time resources. Our main duty is to be a pioneer in supplying, producing and exporting Iranian high quality stones to all around the world.

Our slogan is: «support until the final production of the product».

# Stone Processing

## Stone Processing

The production of slabs of these stones in the processing facilities of this company has been ongoing for 30 years until today.

The processing and production of these stones in marble family is easy, and due to their compactness, they are produced at lower cost and more economical.

## Projects of Camelia Stone

On the other hand, we have got another unique marble which has red veins with attractive special pattern. This feature allows designers to create special and creative designs for specific projects. It is called Camelia.

## Projects of White Ivory Stone

White Kashmar stone is one of the whitest marble stones mined in Iran. According to the high polishable capability of this stone, it brings the beautiful feeling of nature for you. The uniformity of the background is one of the unique features of this stone.

## Project of White Castle Stone

This elegant marble features a soft milky white background with delicate natural veins, offering a calm and refined aesthetic. Its remarkable strength ensures lasting performance in both residential and commercial spaces.

## Projects of Black Eye Stone

Black Eye Marble, enriched with elegant white veins and striking golden streaks, creates a luxurious and timeless appearance. Thanks to its very low water absorption and high durability, it is an excellent choice for both interior and exterior architectural projects.

## Projects of Davy's Grey Stone

The subtle texture and balanced grey tone of this marble create a sophisticated appearance that complements both modern and classic designs. Built to last, it combines natural beauty with dependable performance.

## Projects of Creama Marble Stone

The beauty of Creama Marble lies in its harmonious cream tone and consistent appearance, offering a timeless aesthetic for architectural spaces. Supported by its durable composition, it brings warmth and character to every environment.

## Projects of Travertine Stone

Warm and inviting by nature, Travertine is distinguished by its light cream color and remarkably compact texture. Blending authenticity with lasting durability, it becomes an enduring element in architectural design.
